FACE

**Free African Children
thru Education**

Children not in school are often occupied with household chores, tasked with caring for younger siblings, or work in the marketplace, and the girls are at risk of falling prey to early marriage and, with it, pregnancy.

Thank you for your continued support in providing education for orphaned children in Uganda, who are living with a relative. Only \$10.00 per month sponsors a primary school child, and \$29.00 per month a secondary school child. Many children drop out of school because of lack of funds. Please

consider sponsoring a child to attend secondary school.

Eswatini Building project - progress

Come on a journey to see the progress your donations have allowed at Lobamba SDA Primary School in Eswatini. The 3 photos below show the progression of the first of two new classrooms that began in March 2022. This was completed in July, 2022.

First classroom completed (July 2022) - middle of photo with light coloured roof.

Construction of the 2nd classroom is going well, although it had been temporarily halted as the builder had asked to be excused for a short while. Work was set to resume at the beginning of November to be completed by the end of the month. You can see the construction of the 2nd classroom to the left of the first completed classroom above as it was at the beginning of November.

The 2nd classroom was originally intended to be a computer lab, but the issue of a potential donor for computers for the class is not working out as they thought. They continue to try other avenues.

Children ready to study in the first classroom.

Thank you again for your generous support for FACE, helping to provide education for disadvantaged children in Africa. Please remember the Ugandan

people in your prayers as they continue to battle Ebola outbreaks. Thankfully the regions of Uganda where the FACE schools are located have not reported cases since September 25 according to the [European Centre for Disease Prevention and Control](#) on November 25.
