thru Education**

Wonderful opportunity to double the impact of your donation

An anonymous donor has agreed to match donations up to \$10,000.00 to enable completion of 6 classrooms, furnished with desks and chairs, at the Ellen White Memorial School in Bundibugyo, Uganda. Please see photographs below of the current state of some of the classrooms and the conditions during the rainy season, which is from about mid March to early December.

Double Your Donation

These are 3 standard classrooms which were under construction, by the school some years ago, but they ran out of money and were unable to complete them.

Eswatini Building project

We were very happy to announce the completion of the first phase (of 4) of the building project at Lobamba Primary School in Eswatini. This provided classrooms for grade 3 and 4 students who were beginning in January 2023. The final goal is for 6 more classrooms (which will include a library, computer lab, and a food science lab), totalling 8 in all, which will enable children in this area to complete their primary school education at Lobamba Primary School. We have received close to half the funding for phase 2. The photos below show the first 2 classrooms. Thank you for your support of this cause,

Latrines built at Ellen White Memorial School

Construction of the Ventilated Improved Pit (VIP) latrine began in mid-December of 2022, and was completed just before the new school term began. A VIP latrine is the 'gold standard' of latrines built in the developing world because of the addition of a vent pipe that helps control odours by circulating air up the pipe from the pit and out of the structure. A mesh screen at the top of the pipe helps to eliminate flies in the latrine, which is normally kept fairly dark inside. The flies (and the diseases they carry) are naturally attracted to the light at the top of the vent pipe but cannot escape because of the screen, eventually dying in the pipe and falling back into the

pit. This new latrine will greatly improve sanitary and hygiene conditions at the school, and will ultimately help to improve the health of the children.

Come on a pictorial journey to see how the latrine was built.

Thank you again for your generous support for FACE, helping to provide education for disadvantaged children in Africa. You are surely making a huge difference to these young lives.
